Event Date : March 8, 10:00 am

Dreaming of picking fresh fruit right outside your door? We'll teach you everything you need to know about growing fruit and citrus trees in your backyard. From choosing the right varieties for our climate to proper planting, watering, and pest management, we'll cover it all. Whether you're looking to start small with a single tree or want a full mini-orchard, this class will set you up for success.
