HAPPY HOUSEPLANTS IN SUMMER

Event Date : May 31, 10:00 am

Indoor plants can struggle when temperatures rise, but with the right care, they can thrive all summer long. In this class, we'll discuss how to adjust watering, humidity, and light levels to keep your houseplants happy in the heat. We'll also cover common summer pests and how to prevent them. Whether you're a new plant parent or a seasoned collector, you'll leave with plenty of tips to keep your houseplants lush and healthy.
