PLANTS MADE FOR THE SHADE

Event Date : May 17, 1:00 pm

Have a shady yard and no idea what to plant? We've got you covered! This class will introduce you to a variety of plants that thrive in low-light conditions, from lush ferns and hostas to colorful flowering perennials. Learn how to design a shade garden that's both beautiful and low-maintenance, and discover how to brighten up those tricky, dim areas in your landscape.
